Thanks Gail. Feel free to bring up anything during the meeting that you discover in reviewing previous comments – even if it is just clarifying that it was addressed.

Talk to you next week.

Hi Kristine. I don't think the 5 Tribes will have any particular issues to discuss. I would just like to stay abreast of the discussion on the FWM.

The 5 Tribes reviewed the FWM prior to IEc's involvement, and I am just in the process of reviewing 5 Tribe comments from several years ago to try to get up to speed a bit. You already have our comments on the description of the model (Appendix B of Section 2 of the revised FS), but these comments primarily seek clarification on the description rather than provide feedback on the model itself. I presume that a revised Appendix B will address our comments. I am in the process of reviewing our Appendix B comments to see if there's anything that would be good to discuss on the call. I will forward any questions your way in advance of Thursday's call. However, I think you can assume that any issues from the 5 Tribes at this point will be minimal.

Thank you. I look forward to the call.

All,

In preparation for this meeting, could each of you send me a list of your issues with the food web model. This will allow me to put together an agenda.

Thanks,
